Important!

It is less than two months until your child sits their statutory multiplication check. Please ensure you are helping your child to practise their times tables at home: a little every day is ideal!

At this point in the academic year, it is expected that every year four child knows every times table and they are now working on recalling them at speed.

Times table knowledge is paramount in many areas of Maths, so knowing them will help your child understand more complex concepts as they move into Year 5.
