

Rabbit Class Home Learning—Summer 2

Maths

Stick length measuring
Collect 5 sticks order them from shortest to longest.
Can you measure them using cubes, pasta or your hands?

Explore

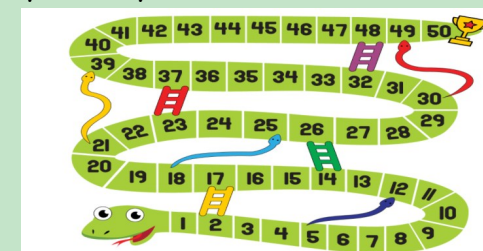

Go on a 'signs of summer' hunt!
Look for flowers, insects, long grass, birds, clouds or seeds. Draw and take a picture of what you find

Maths

Play board games that use dice, such as snakes and ladders.
Can you count aloud as you move your counter?

Talk about which number is bigger and how many more you need to reach the top.

Mark making

Draw your favourite outdoor place
It could be a your garden, the woods, the park or where you live.
Use your phonics to label what you can see!

Maths

Make a flower using paper or card, write a number in the middle (0-5) group the petals into two colours to show the number bond.
Use the sentence " _ is made _ of _ and _ "

"5 is made of 3 and 2"

Fine motor skills

Build a bug hotel using recycled materials. Think about what insects might like to hide in and why

Please choose one activity per week to complete. We would love you to bring it in to share with us in class!
